# SAVE SHIVALIK SAVE MOTHEREARTH a socio- environmental society.

The quality of life on the Earth is fast deteriorating consequent upon resource depletion and environmental degradation. This poses a threat to the very existence of the mankind and all other forms of life. The challenge before us now is the reversal of this situation through enrichment of the environment and conservation of the natural resources for a sustainable future. The World Conservation Strategy defines sustainable development as the kind of development that meets the needs of the present without compromising the ability of the future generation to meet their own needs. In other words, it means improving the quality of human life while living within the carrying capacity of the supporting ecosystem. Realizing this, the SAVE SHIVALIK Save Motherearth was founded in March 2017 to promote safe environment and awareness on the fast deteriorating quality of human environment and the need for conservation of the Nature.

## AIMS AND OBJECTIVES OF SOCIETY

The main objective is to follow this statement: "Sustainable development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs from natural resources."

(Protect, Revive, Promote and Sustain)

- A. To protect natural environment by sapling new plants, resist falling of social forest, creating awareness of utility of medicinal plants among rural population by planting five medicinal plants village wise.
- B. To protect potable water from contaminating, misusing, wasting such water and recycle the waste water, apply methods to recharge ground water with rain water.
- C. To protect soil from contamination with waste plastic material, create awareness among people to segregate plastic material from garbage for recycle, avoiding using plastic carry bags, scientific waste (garbage) management.
- D. To protect natural structure of Shivalik hills, natural fauna and flora with its geographical identity.
- E. To protect the Shivalik hills by stopping destruction, by encroachment of illegal mining and digging and defacing moulds for converting natural hills in plains and fields or for personal as well as commercial picnic and recreation spots
- F. To revive Shivalik wild life by planting trees, maintaining water containing spots and reinstating habitats (natural as well as artificial hanging nests) of various species of animal and birds.
- G. To revive and maintain liaison between human, nature and animal world for the sake of environment.
- H. To promote participation of people in environmental elevating activities by framing co-curricular and organize seminars in schools, colleges, academic institutions youth clubs, unions, village sabhas to spread awareness and to get involvement of maximum minds to achieve goal of society. To celebrate local festivals, national and international days to spread aware and maximum involvement of common mass.
- I. To promote awareness to conserve, save ground water level and optimum use of available water.) by holding exhibitions, collaborate conferences, seminars, symposia, meetings, demonstrations, mass mobilization campaigns, popular lectures, cultural programmes, etc
- J. To sustain natural sources such as water, soil, air and overall ecology by advising the State Government, Union Government or any other organization on matters related to environment by lobbing and pressure groups activities.
- K. To provide social justice and equality by helping the poor people in field of education, hygiene & sanitation, and living standard.
